

Catalyst™ Platform Demo

Updated 11/17/2020

The Catalyst™ platform is participants' home base for ongoing DiSC® learning—in class and out of it. Part of successfully introducing *Everything DiSC® on Catalyst™* to your clients includes showcasing the Catalyst platform and guiding client decision makers to key features and benefits. You have the option to do this using the Catalyst demo environment, which features a fictitious organization with colleagues of various DiSC styles. Log in to the Catalyst demo during your next client conversation and share your screen to:

- Offer a virtual tour of the Catalyst platform content and key features
- Demonstrate the benefits of using Catalyst within an organization

Use these login credentials to access the Catalyst demo:

URL: catalyst.everythingdisc.com

Email: mateo@everythingdisc.com

Password: CatalystDemo123!

A couple important notes:

Only Authorized Partners and *Everything DiSC on Catalyst* kit holders are permitted to use the Catalyst demo environment. You should not share these login credentials with anyone. We may change these login credentials from time to time to ensure security and restrict access to this environment. Check back here for updates.
